Certificazioni ignifughe

UK BS 5852 Lo standard britannico BS 5852 regola le prove antincendio per i mobili delle sedute. È una norma che disciplina le prove che determinano l'inflammabilità dei materiali compositi del rivestimento di sedute e tappezzerie con il fuoco di sigaretta e con altre sorgenti infiammabili.

TB 117 Il Technical Bulletin 117 è una norma estesa a tutti gli USA. La certificazione viene rilasciata a seguito di una prova che misura la resistenza al consumo di una sigaretta che non deve provocare nè fiamme, nè altri fenomeni tipici delle combustioni senza fiamme (per esempio incandescenze).
